Subject: Re: RMPP - Unit 5 - Reflective Activity 2

Hi Zihaad,

I hope you are well and good to meet you over e mail!

Please do not worry about being able to attend the seminars - I am pleased that you are finding them helpful when catching up with them in your own time.

Thank you for sending formative 5 and below is some feedback:

- The formative is set out professionally using the appropriate font and spacing in the document
- The content is concise and answers the Reflective formative requirements
- You set out the content and response to the Reflective formative using accessible academic language which is appropriate
- You use regular citation which acknowledges where your research came from
- You support your citation with a relevant list of references
- Your content is focused and presented in both an interesting and academically appropriate manner, reflecting fact based discussion

Please add my feedback to your e-portfolio as part of your artefacts

With best wishes
