<b>Knowledge and understanding of the topic/ issues under consideration (30%)</b> To provide an overview of current knowledge on the chosen topic	<b>Very Good</b>	Very good application of knowledge covering the key aspects that need consideration in the context of your chosen topic. There is a clear strand of core research running through the whole of the assignment and this is good practice. The content is logical and well planned which means that tangents do not occur, which again is appropriate regarding academic assignments.
<b>Criticality (30%)</b> To highlight similar and contrasting views on your chosen topic	<b>Very Good</b>	There is emerging criticality in your content. Some of your assignment can be descriptive, whilst there are areas of the content that look more closely at opposing points/the pros and cons of a situation. This approach, [reflecting pros and cons of a discussion], needs to be more closely examined in future summative submissions to get that dynamic debate occurring in the content, all the way through.
<b>Use of relevant sources (20%)</b> To demonstrate an awareness of relevant, current literature	<b>Excellent</b>	Overall, excellent use of relevant research, from an appropriate cross-section of authors. There is an effective mix of research demonstrated in the assignment which is applied consistently and appropriately to the Literature Review. Continue to take this approach moving forward.
<b>Structure and Presentation (as detailed in the assessment guidance) (10%)</b> To showcase your research and writing skills.	<b>Outstanding</b>	The assignment is laid out to an outstanding standard. Careful attention to detail regarding aesthetic of content, care has been taken to add a contents page and professional title page. Clear time management has been applied to the document which is academically and professionally presented.

<p><b>Academic integrity (10%)</b> To showcase your research and writing skills.</p>	<p><b>Excellent</b></p>	<p>The assignment is within word count, and the title aligns with the title choices that are available from the Unit 1 list which is appropriate. You have used regular citation which is appropriate. You can also use citation in conclusions where facts/research is mentioned and so do bear this in mind for future. The majority of syntax and sentence structure in your content is strong, generally speaking you have a well-paced, logical tone to your academic content. An excellent outcome here overall.</p>
